DECISION INFRASTRUCTURE - BUILT IN MINNESOTA

From fragmented information *to accountable action.*

Axlete helps companies, governments, and organizations turn difficult operating problems and disconnected evidence into usable systems, clearer decisions, and measurable results.

SEE WHAT MATTERS / DECIDE WHAT TO DO / MEASURE WHAT HAPPENED

THREE WAYS TO START

01

Decision Brief

Written brief, sources, assumptions, recommendations, and agreed analysis. Indicative: 10 business days after scope and access. Fixed fee agreed upfront.

RESEARCH / OPERATIONAL QUESTIONS

02

Decision Infrastructure Pilot

One decision, bounded data, a working workflow, documentation, and agreed handoff. Indicative: 60 days after scoped kickoff and access. Fixed scoped fee.

RECURRING OPERATING DECISIONS

03

Digital Systems Delivery

Apps, integrations, services, or programs with explicit acceptance and handoff. Schedule in delivery plan; scoped or milestone fee.

AXLETE DELIVERY / OURCIVIC

AXLETE

INTEGRATED CAPABILITY

Strategy, systems, and delivery - connected.

01 Strategy & Operational Improvement

Operating diagnostics, performance assessment, priorities, and an executable improvement roadmap.

02 Data & Analytics

Shared measures, reporting, forecasts, and inspectable decision models connected to source data.

03 AI & Workflow Automation

Bounded automation, appropriate model integration, review controls, and operating handoff.

04 Digital Products & Systems

Applications, portals, requirements, ERP assessment, integrations, and tested implementation.

05 Research & Market Intelligence

External intelligence briefs, market and needs assessments, sources, and decision implications.

06 Program & Implementation Delivery

Delivery plans, specialist coordination, dependencies, acceptance, and a single accountable lead.

THE OPERATING LOOP

FINDING → RECOMMENDATION → DECISION → ACTION → MEASURED RESULT

LIVE DEPLOYMENT

OpenRochester

A working civic product connecting public information, resident participation, official decisions, and visible follow-through.

DELIVERY POSTURE

Founded in 2021 and led by Axe Ahmed. Rochester - Minneapolis, Minnesota built. Services can be engaged independently of products. OpenRochester is an independent Axlete deployment; Parallax is a protected foundation and Portfolio is a synthetic demonstration. Roles, scope, and acceptance stay explicit.

Bring us the decision that is harder than it should be.
